

A STRONG COMMITMENT !

We are looking forward to private and institutional partners to carry out our film projects.

In order to emphasise your company or your ASBL's visibility, your name will appear on each our film communication support. In case of substantial contributions, some counterparts will be set up. For example, an advert or an advertising clip could be made for free to seal our partnership. For individuals who want to help, we will make it possible for them to back up our project.
